AISHATH SHAFA SAUDULLA

Software Engineer

aishathshafaofficial@gmail.com | aishshafa.github.io | linkedin.com/in/aishathshafa | github.com/aishshafa

PROFESSIONAL SUMMARY

Software engineer who develops, tests and implements systems, websites and databases, from database design and backend through to the frontend and cloud deployment. I especially care about design that's thoughtful and user focused, and I have a personal passion in creating UIs that feel natural to use.

WORK EXPERIENCE

Software Engineer - Isle Web **Apr 2026 - Present**

Freelance, end-to-end delivery for diverse client projects

- Developed, tested and implemented client systems and websites as the sole engineer from initial database design and backend infrastructure to frontend development and cloud deployment.
- Planned and designed the databases behind each product and built the backend infrastructure that serves.
- Designed, built and launched IsleWeb's company website, isleweb.com

Sole Web Developer - Zoom Travels **Jan 2026 - Mar 2026**

- Sole developer of zoomtravels.net, a responsive single page static site built with Astro5 (Vite) and Tailwind CSS4 with the front end structured as reusable .astro components (navigation, hero, about, services, testimonials, FAQ, contact, footer) composed through a shared layout.
- Implemented scroll driven animations with GSAP ScrollTrigger (element reveals, staggered cards, hero parallax) and a sticky video hero.
- Wrote scroll aware navigation, active section tracking and expandable FAQs using Alpine.js and inline scripts, with WhatsApp, social media and email contact links.

Intern - Ministry of Health **Jun 2025 - Jul 2025**

- Contributed to a national health statistics platform prototype, using React Native, Node.js/Express and PostgreSQL.
- Designed the PostgreSQL database schema and tested the APIs with Postman.
- Documented and handed the architecture and source code over to the division's internal team for continued development.

ADDITIONAL EXPERIENCE

- Assistant Officer - International Department Passenger Services, MACL | Feb 2020 -Jan 2021
- Earlier roles: Sales Officer (Red Creatic), Elections Officer (Elections Commission), Invigilator (Ministry of Higher Education), Collections Officer (Raajje Online), Sales Associate (Sosun Mart) | 2016 – 2019

EDUCATION

BSc (Hons) Software Engineering, Dual Award **2022-2025**

De Montfort University (UK), Asia Pacific University (Malaysia)

Degree Foundation in Business & IT **2018**

Asia Pacific Institute of Information Technology

SKILLS

Databases: PostgreSQL, MySQL, SQL, DBeaver, pgAdmin

Web & Systems: React, React Native, Node.js, Express.js, HTML, CSS, Bootstrap, API Testing (Postman)

Languages: Python, JavaScript, Java, C#, C++, Kotlin, Dart, R

Cloud & Tools: AWS, Git, Visual Studio, Eclipse, NetBeans, Android Studio, RStudio

Practices: SDLC, Agile, Requirements Engineering, Software Architecture, Design Patterns, OOP, Automated Testing, UI/UX and HCI
